

# Image Processing: EE604

Discussion session: II

---

Dr. Tushar Sandhan

# Introduction

---

- Individual discussion session with students (3.30pm ~ 5.30pm)
  - total 7 students visited
  - discussion was only about answering their doubts from the class lecture slides
  - no other discussion happened regarding exam/pattern etc.
  - some of their common doubts were regarding below topics
    - what are pseudocolor image mapping functions?
    - how to display/analyse images having some pixels with negative values?
    - what is aliasing, doubts about illumination effects?
    - how to apply intensity transformations?
    - CMYK color space?
    - quantization values and are those average between some uniform levels?
